***Claim Rejections - 35 USC § 112***

Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 12-13, the limitation "the inner surface said open cylindrical chamber" is confusing

Claim 2, lines 13-14, the limitation "a portion of said inner surface, of said chamber" is confusing.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Golenski U.S. Patent 3,991,485.

Golenski disclosed a driving test range comprising a roadway (20) having an entrance portion and an exit portion (25), the roadway having lateral edges on each side of the roadway; a plurality of contact members (27) on or adjacent to the lateral sides with the contact members being adapted to be contacted by the vehicle as it is driven through the roadway, with the contact members having means to record electrically any impact against one or more of the contact members when a vehicle being driven on the roadway (see column 5); speed tabulation means (61, 62) positioned throughout the

roadway; computer calculation means (83) interconnected with each of the contact members as well as the speed tabulation means to register the relative score of a driver of the vehicle being driven through the roadway as based on a direct function of speed of the vehicle and an inverse function of the number contact members contacted by the vehicle as the driver drives the vehicle through the roadway.

***Allowable Subject Matter***

Claims 1 and 2 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

***Conclusion***

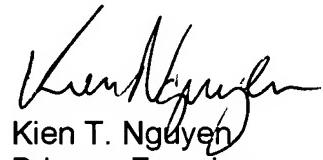

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The enclosed references are cited for interest.
